PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building and deploying web applications and REST APIs using ASP.NET Core, C#, React.js, TypeScript, and PostgreSQL. Works across the full software development lifecycle at nCircle Tech, from requirement analysis and development to testing, cloud deployment, and post-release support. Built EcoBin, a microservice-based IoT platform with role-based access control, containerized with Docker and deployed on Google Cloud.

TECHNICAL SKILLS

Languages: C#, TypeScript, JavaScript, Python, C/C++, SQL
Backend: ASP.NET Core Web API, Node.js, RESTful API Development, Microservices Architecture
Frontend: React.js, Vue.js, TypeScript, Tailwind CSS, Material UI, Bootstrap, HTML5, CSS3, Responsive Design
Cloud & DevOps: AWS, Google Cloud Platform (GCP), Docker, Git, GitHub, Application Deployment
Database: PostgreSQL
Tools & Other: Postman, Unity, Blender, Three.js, ESP32 (IoT)

PROFESSIONAL EXPERIENCE

Member of Technical Staff | nCircle Tech | Nov 2025 – Present
Pune, India

- Develop and maintain backend services and RESTful APIs with ASP.NET Core and C#, supporting business-critical application functionality across multiple features.
- Build and enhance responsive frontend components in React.js and Vue.js, improving user experience, performance, and usability.
- Manage cloud-based deployments and infrastructure configurations to keep applications available and reliable.
- Take full ownership of assigned features and see each one through to a stable production release, staying accountable for deadlines and for issues after launch.
- Participate in every stage of the software development lifecycle: requirement analysis, development, testing, deployment, and post-release support.
- Collaborate with cross-functional teammates to accelerate feature delivery and maintain release quality and production stability.
- Troubleshoot and resolve production issues during post-release support to keep the system stable.
- Contribute to interactive 3D and visualization applications using Unity and Blender.

Technical Management Team Intern | TCB | Aug 2025
West Bengal, India

- Supported technical operations and project coordination activities for the team.
- Assisted with technical planning and the execution of assigned tasks.

PROJECTS

EcoBin – Smart Waste Management System (Full-Stack + IoT)
Tech: *ASP.NET Core, React, TypeScript, PostgreSQL, Docker, ESP32, Google Cloud* | ecobin-app.netlify.app/dashboard

- Designed and built a microservice-based waste management platform with ASP.NET Core Web APIs and PostgreSQL, containerized with Docker.
- Implemented role-based authentication and authorization for four roles: Admin, Collector, User, and Guest.
- Developed a responsive React + TypeScript + Tailwind CSS frontend for real-time bin monitoring and environmental data.
- Integrated ESP32 with MQ135, DHT11, ultrasonic, and load cell sensors to collect real-time fill-level, weight, and air-quality data.
- Implemented route optimization for waste collectors and nearest-bin navigation for users.

Maity Enterprise Website – Fiber-Optic Internet Provider
Tech: *React.js, Tailwind CSS* | maity-enterprise.netlify.app

- Built a responsive business website in React.js and Tailwind CSS for a fiber-optic internet service provider.
- Presented service plans and coverage information, and added a feature for users to locate nearby optical splitter locations.
- Designed customer-facing interfaces focused on usability and customer engagement.

EDUCATION

B.Tech, Electronics and Communication Engineering | Techno International New Town | 2021 – 2025
CGPA: 7.57 / 10.0

Higher Secondary Education (H.S.) | Nohari High School | 2019 – 2021
Subjects: Physics, Chemistry, Mathematics

Secondary Education | Nohari High School | 2015 – 2019
Subjects: General

CERTIFICATIONS

Executive Post Graduate Certificate in Applied AI and Machine Learning | IIT Kharagpur | Sep 2026 – Present

The Complete Full-Stack Web Development Bootcamp | Udemy | View Certificate

Languages: English, Hindi, Bengali
